# hurricane season is now through November — be prepared.

Emergencies can come in all shapes and sizes. Now through November is hurricane season, and this year is expected to be the seventh straight with above-average activity. If you live in a state affected by hurricanes, make sure you have a plan ready.

## The American Red Cross tips to shelter safely

- 1. Store supplies, a medical kit and alternative resources to be prepared to live without power, water, gas, phone and internet.
- 2. Go to a small, interior, windowless room in a sturdy building on the lowest level that’s not likely to flood.
- 3. If your location is likely to flood, designate a location on higher ground.

Remember, Plain Green is here if you need emergency cash.
